To Whom It May Concern:

I am sending you this letter to inform you about the very positive dialogue WTTW is having with Jeff Baraka as he develops **International Player** into a series for public media. Jeff has a strong on camera presence and a solid vision for **International Player** which is unique and compelling.

Jeff has participated in Kartemquin Films Diverse Voices in Docs program. The experience from this endeavor has helped him formulate a quality treatment. Everyone at WTTW looks forward to collaborating with Jeff as he works hard to make **International Player** a program that meets the mission of public media.

If there is anything else I can do to convey my support of Jeff and **International Player**, please don't hesitate to contact me. It has been a pleasure to engage with Jeff and having his presence on public media would be a tremendous benefit to the system.

Sincerely,

Daniel J. Soles
Senior Vice President
Chief Television Content Officer
